Clay Vessel

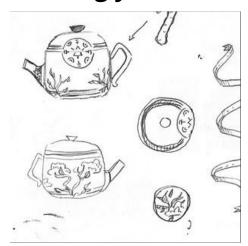

_/10 Idea development Development so far: _

Criteria for your finished Clay Vessel:

Clay skills Strength, balance and surface finish **Quality of Carving** Complexity, quality, fullness, and craft **Daily Clean-up Habits**

Cleaning table & floor to be streak-free

Building your vessel step by step

1. Develop your **idea** first!

2. Divide your clay into four pieces: one for a **base**, two for **coils**, and one for **everything else** and for emergencies.

3. Make the **bottom**: a disc of clay that is 1-1.5 cm thick and 7-10 cm in diameter. **Store any leftovers** in your bag.

7. **Stretch** the coils by **spreading** your fingers while rolling.

8. **Smear** your coils together using only **one finger** or one thumb.

9. **Don't pinch** on either side because you will make your pot very dry and thin.

13. Add a **foot** by attaching a coil.

14. Scribe and then trim the lip.

15. Coat your pot with **white slip**. Let it dry and add coats until there are **no streaks**.

4. Keep it fairly **rough** because smoothing it will dry it out.

5. Make a series of **coils** that are about 1-1.5cm thick.

6. Remember that you are **not squeezing** the coils. **Work quickly**!

10. **Smooth the inside** with your **fingers**. If you can't reach, it is OK.

11. Shape your vessel by **paddling** it with a wooden spoon or stick.

12. Shave it with a **knife**. Then **smooth** it with a metal/plastic/silicone **rib**.

16. Do a very **light rough sketch** of your drawing on your pot.

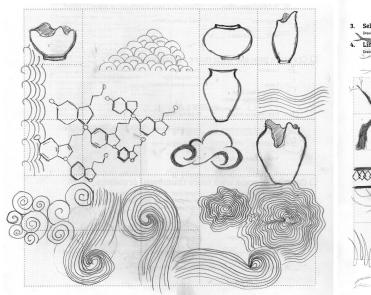

17. Take a sharpened pencil and **carve through the slip** into the brown clay.

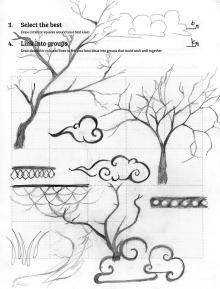

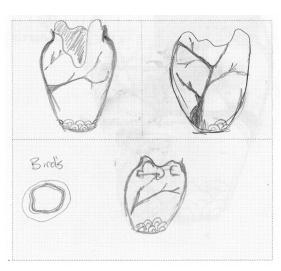

18. Finally, carve your **name** on the bottom.

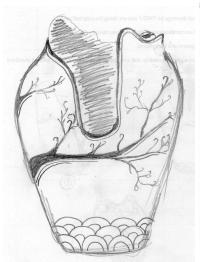

Idea generation

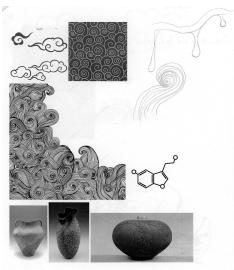

Antoinette O'Keefe's clay vessel

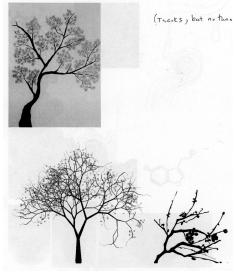

Clay vessel evaluation criteria

Clay skills The strength, balance, and surface finish of your clay vessel.

Quality of carving The complexity, quality, fullness, and craft of the patterns and line drawing on your vessel.

Daily clean-up habits Cleaning your table and floor so it is clean and has no streaks.

Vocabulary for the clay vessel

apron a piece of cloth that you wear to protect your clothes from getting dirty.

carving scratching into clay to change its shape or to make a picture or pattern

ceramic a material that starts soft like clay, but then becomes very hard after it is cooked to a very high temperature

clay a soft material used for making pots, bricks, and sculptures that becomes very hard when it is heated up.

coil a thin piece of clay that looks like a snake

earthenware a kind of clay that is fired to a lower temperature and that needs to be glazed before becoming watertight

foot the bottom of a pot where it sits on a table

glaze a material that you can paint onto ceramic that turns into glass when fired in a kiln

glazing for clay: brushing on a paint-like layer to a pot that will later become a layer of glass; for painting: using very thin

transparent layers of paint to change the colour

handle the part of something that is used to lift or carry it

kiln an oven used to heat up clay enough to become a hard ceramic

lid the top of a pot that you can take off

lip the top edge of a pot

paddling hitting clay with wood to make it stronger, smoother, and a better shape

pattern a drawing that repeats in a beautiful way

pinch squeezing something between your thumb and finger

rib a piece of silicone or wood used to smoothly shape some clay

score carve Xs or parallel lines to help join clay together with slip

scraper a piece of thin metal or plastic used to shave off thin pieces of clay

scribe mark an even and straight line

shave scrape bumps and fuzz from the surface of something

slip a liquid clay that you can use like glue to attach things together, or paint onto your clay to change its colour

stretch pulling something to make it longer

terracotta an unglazed reddish-brown earthenware clay

transfer to move or copy something
trim remove extra clay with a tool

Idea Development

Name:

Generate ideas 1

Number of **words**
$$\rightarrow$$
 ____ \times 1%

Number of **simple** sketches
$$\rightarrow$$
 _____ \times 3% = ____%

2 Select the best and join together ideas

Link into **groups** of ideas

Print reference images 3

maximum of 50%

4 Rough copy

great quality or better

Total = %

NOTE: If you simply copy a picture from the internet, your mark drops to 25%.

Generate ideas!

Use lists, a web map, or simple drawings to come up with a LOT of ideas! If you already have an idea in mind, choose that as your central theme and expand upon it. Let your ideas wander - one idea leads to another. Drawings can be details of source images, different viewpoints, textures, technical experiments, etc.

Adding up points for ideas:

Number of **words**→ ____ **x 1% =** ____ **%**

Monan with brimmed Halon with cattais William morris pur Yoko Itorda Squigo geometric LED tur

Number of **sketches** \rightarrow _____ \times **3% =** _____%

Select the best

Link the best into groups

Draw circles or squares around your best ideas

Draw dashed or coloured lines to link your best ideas into groups that could work well together

 \square You have selected the best 3-7 ideas = 5%

 \square You have joined the best ideas with lines = 5%

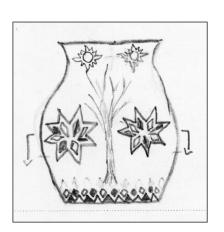

Print references

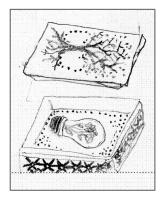

Number of reference photos \rightarrow ____ × 5% = ____%

- Print **SIX** reference images so you can accurately observe the challenging parts of your artwork. Taking your and using own photographs is preferred, but image searches are also fine.
- **Do not simply copy a picture that you find.** The idea is to edit and combine source images to create your own artwork. If you simply copy a picture, you are plagiarizing and will earn a zero for your idea generation and any criteria involving creativity in your final artwork.
- Up to half of your pictures may be of drawings, paintings, or other artworks of others to use as inspiration. The other images must be realistic photographs.
- You must hand in the **printed** copy of the images to earn the marks.

Examples of ROUGH drawings

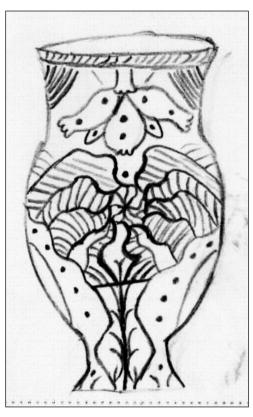

Rough $drawing \rightarrow up to 25\% = ____%$

Rough drawing

- Take the best ideas from your thumbnails and combine them into an improved rough copy.
- Use this to work out the bugs and improve your skills before you start the real thing.
- If you are using colour, use paint or coloured pencil to show your colour scheme.
- Draw in a frame to show the outer edges of your artwork.
- Remember to choose a non-central composition.
