## Printmaking

—/10 Idea development

### Criteria for your three finished prints:

**Quality of carving:** Carve with crisp contour, using a wide variety of line widths and shapes.

**Quality of printing:** Hand in your best three prints. Create clean lines, crisp edges, solid darks and clean whites. Print with careful alignment, and consistency between prints.

**Composition:** Create prints that are complete and full. Make sure you have a non-central composition and a balance of light areas and dark areas.

# Printmaking Project outline

Printmaking is an ancient process that allows a person to create huge numbers of prints from a single drawing. In its simplest form, it involves carving into a material to make a stamp, putting ink on it, and then transferring that ink onto paper.

We are going to be carving into 8x10" print blocks with chisels and linozip tools. Then we will use brayers (ink rollers) to ink the blocks before placing paper on them and rubbing it with barrens and wooden spoons.

## Things to remember

- Anything you carve onto your block will be reversed left to right, such as type or printing.
- If you want to transfer a drawing onto your block, consider using tracing paper or graphite/pastel transfer.
- Printmaking is often called the *art of the white line*. That means that everything that is white will be carved away and anything black will be left behind. (Yes, a reversed image is cool looking, but it is also a sign of someone who cannot figure out how to reverse their drawing naturally.)
- When planning your artwork, consider drawing with light coloured pencils on black paper. Also consider putting drawing ink on your linoleum block first, and then drawing with light coloured pencils on top of that too.

## Esquema del proyecto de grabado

El grabado es un proceso antiguo que permite a una persona crear una gran cantidad de impresiones a partir de un solo dibujo. En su forma más simple, implica tallar un material para hacer un sello, ponerle tinta y luego transferir esa tinta al papel.

Vamos a tallar bloques de impresión de 8x10" con cinceles y herramientas linozip. Luego usaremos brayers (rodillos de tinta) para entintar los bloques antes de colocar papel sobre ellos y frotarlos con estériles y cucharas de madera.

## Cosas para recordar

- Cualquier cosa que grabe en su bloque se invertirá de izquierda a derecha, como el tipo o la impresión.
- Si desea transferir un dibujo a su bloque, considere usar papel de calco o transferencia de grafito/pastel.
- El grabado a menudo se llama el arte de la línea blanca. Eso significa que todo lo que sea blanco será tallado y todo lo negro quedará atrás. (Sí, una imagen invertida tiene un aspecto genial, pero también es una señal de alguien que no sabe cómo invertir su dibujo de forma natural).
- Al planificar su obra de arte, considere dibujar con lápices de colores claros sobre papel negro. También considere poner tinta de dibujo en su bloque de linóleo primero, y luego dibujar con lápices de colores claros encima también.

Muundo: Unda vichapisho vilivyo kamili na vilivyojaa. Hakikisha una utungaji usio wa kati na usawa wa maeneo ya mwanga na maeneo ya giza.

Komposisyon: Gumawa ng mga print na kumpleto at puno. Siguraduhin na mayroon kang hindi sentral na komposisyon at balanse ng mga lugar na maliwanag at madilim na lugar.

Композиція: створюйте цілісні та повні відбитки. Переконайтесь, що у вас не центральна композиція та баланс світлих і темних областей.

Thành phần: Tạo bản in hoàn chỉnh và đầy đủ. Đảm bảo rằng bạn có một bố cục không tập trung và có sự cân bằng giữa vùng sáng và vùng tối.

# Skill builder Observing lines for printmaking

The strangest thing about printmaking is that you have to carve **white lines** out of a **dark background**. This is the reverse of what we do with a pencil. It **takes practice** to get used to this!

# Idea Development / Desarrollo de ideas

## 1 Generate ideas / Genera ideas

maximum of 50% / máximo del 50%

Use lists, a web map, or simple drawings to come up with a LOT of ideas! If you already have an idea in mind, choose that as your central theme and expand upon it. Let your ideas wander - one idea leads to another. Drawings can be details of source images, different viewpoints, textures, technical experiments, etc.

*¡Usa listas, un mapa web o dibujos simples para generar MUCHAS ideas! Si ya tiene una idea en mente, elija eso como su tema central y amplíelo. Deje que sus ideas divaguen: una idea lleva a otra. Los dibujos pueden ser detalles de imágenes de origen, diferentes puntos de vista, texturas, experimentos técnicos, etc.*

Number of **words** / Número de palabras → \_\_\_\_ ÷ 3 = \_\_\_\_ %

Number of **simple** sketches / Número de bocetos simples → \_\_\_\_ × 2% = \_\_\_\_ %

Number of **better** sketches / Número de bocetos mejores → \_\_\_\_ × 4% = \_\_\_\_ %

## 2 Select the best and join together ideas / Selecciona las mejores y une ideas

**Circle** the **best** ideas

*Encierra en un círculo las mejores ideas* circled / en un círculo =  5%

**Link** into **groups** of ideas

*Enlace en grupos de ideas* linked / vinculado =  5%

## 3 Print reference images / Imprimir imágenes de referencia

maximum of 8 images

- Print **EIGHT** reference images so you can accurately observe the challenging parts of your artwork. Taking your own photographs is preferred, but image searches are also fine.
  - **Do not simply copy a picture that you find.** The idea is to edit and combine source images to create your own artwork. If you simply copy a picture, you are plagiarizing and will earn a zero for your idea generation and any criteria involving creativity in your final artwork.
  - Up to half of your pictures may be of drawings, paintings, or other artworks of others to use as inspiration. The other images must be realistic photographs.
  - You must hand in the **printed** copy of the images to earn the marks.
- 
- *Imprima OCHO imágenes de referencia para que pueda observar con precisión las partes desafiantes de su obra de arte. Es preferible tomar sus propias fotografías y usarlas, pero las búsquedas de imágenes también están bien.*
  - *No copie simplemente una imagen que encuentre. La idea es editar y combinar imágenes de origen para crear su propia obra de arte. Si simplemente copia una imagen, está plagiando y obtendrá un cero por su generación de ideas y cualquier criterio relacionado con la creatividad en su obra de arte final.*
  - *Hasta la mitad de sus imágenes pueden ser dibujos, pinturas u otras obras de arte de otros para usar como inspiración. Las demás imágenes deben ser fotografías realistas.*
  - *Debe entregar la copia impresa de las imágenes para ganar las marcas.*

\_\_\_\_ images / imágenes × 5% = \_\_\_\_ %

# Idea Development / Desarrollo de ideas

## 4 **Thumbnail compositions / Composiciones en miniatura** maximum of 10 thumbnails

- Create **THREE** thumbnail drawings anywhere in the idea development section.
- These should be based on combinations of ideas that you can come up with. Include your **background**.
- Experiment with unusual angles, viewpoints, and arrangements to help make your artwork stand out.
- Draw a frame around your thumbnails to show the edges of the artwork.
- Cree **TRES** dibujos en miniatura en cualquier parte de la sección de desarrollo de ideas.
- Estos deben basarse en combinaciones de ideas que se te ocurran. Incluye tus antecedentes.
- Experimente con ángulos, puntos de vista y arreglos inusuales para ayudar a que su obra de arte se destaque.
- Dibuje un marco alrededor de sus miniaturas para mostrar los bordes de la obra de arte.

\_\_\_\_ thumbnails / miniaturas x 8% = \_\_\_\_ %

## 5 **Rough copy / Borrador** great quality or better / gran calidad o mejor

- Take the best ideas from your thumbnails and combine them into an improved rough copy.
- Use this to work out the bugs and improve your skills before you start the real thing.
- If you are using colour, use paint or coloured pencil to show your colour scheme.
- Draw in a frame to show the outer edges of your artwork.
- **Remember to choose a non-central composition.**
- Tome las mejores ideas de sus miniaturas y combínelas en una copia preliminar mejorada.
- Use esto para resolver los errores y mejorar sus habilidades antes de comenzar con lo real.
- Si está usando color, use pintura o lápiz de color para mostrar su combinación de colores.
- Dibuja en un marco para mostrar los bordes exteriores de tu obra de arte.
- **Recuerda elegir una composición no central.**

\_\_\_\_ drawing / dibujo x 25% = \_\_\_\_ %

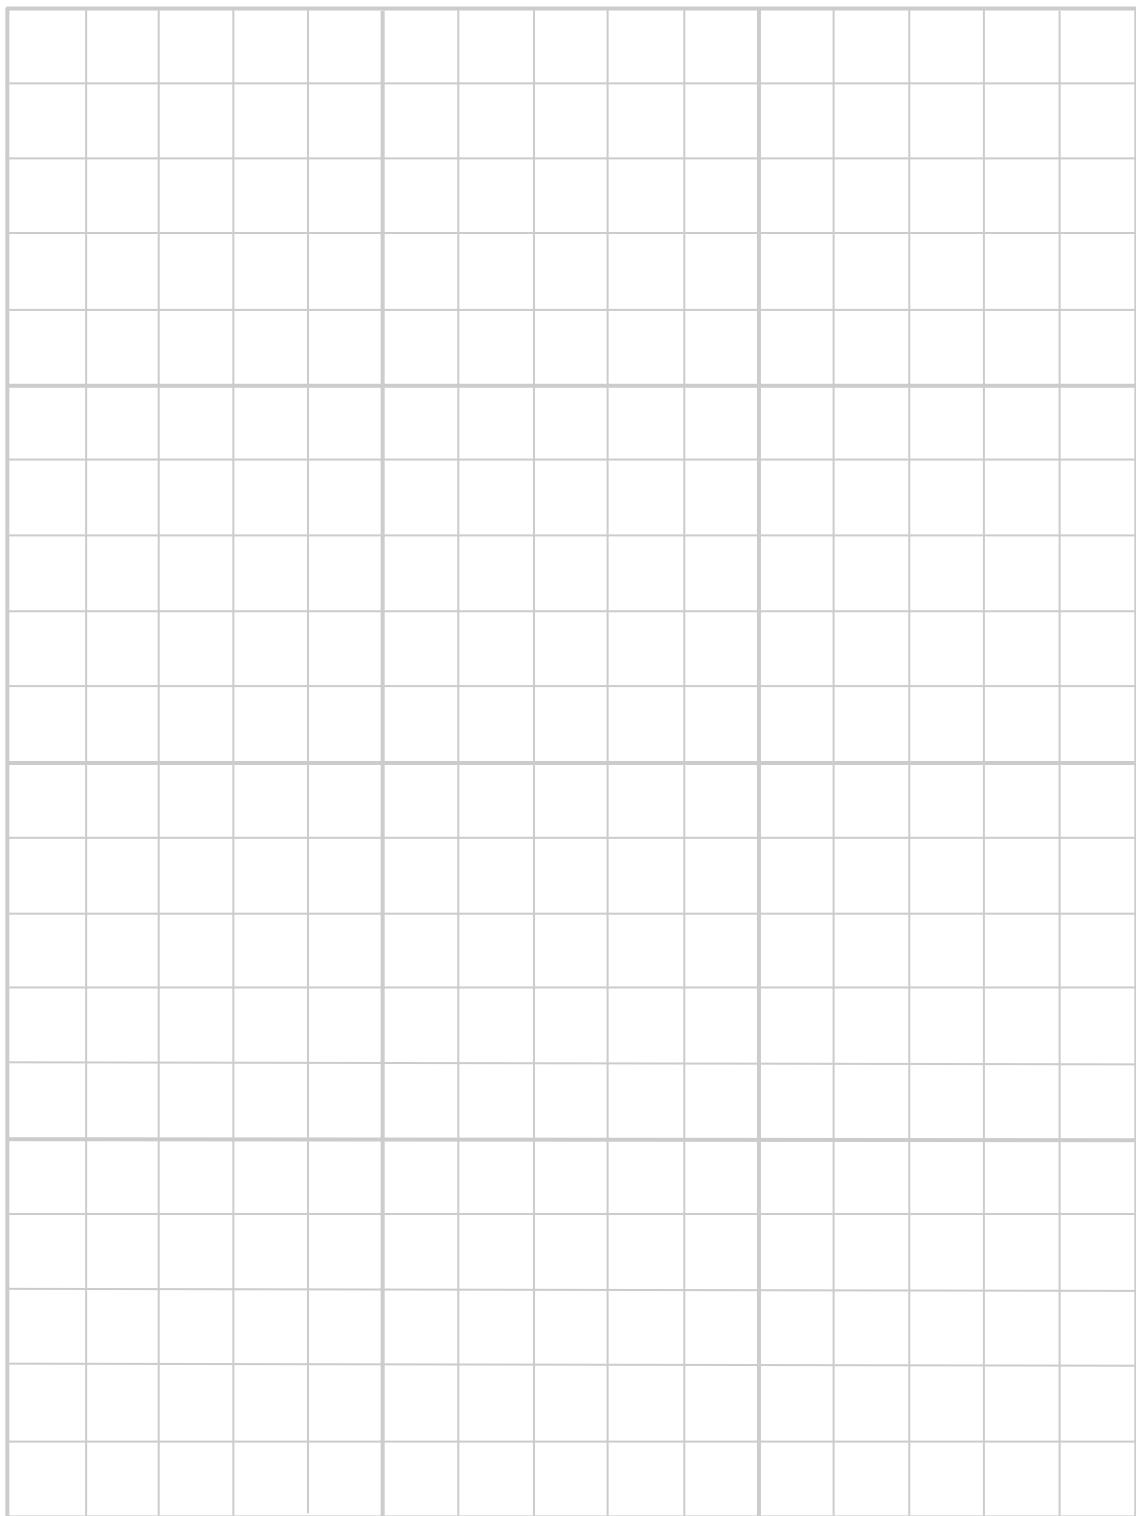

**Total / Total=** \_\_\_\_ %

**NOTE:** If you simply copy a picture from the internet, your mark drops to 25%.

**NOTA:** Si simplemente copia una imagen de Internet, obtiene el 25%.
