

# Time budget

Time management can be tricky for artists. Make a time budget so that you won't fall behind. Fill in the day numbers and information in order to help you stay on track.

**Total days available:** \_\_\_\_\_

\_\_\_\_\_ days for **Materials exploration**

\_\_\_\_\_ days for **Creativity development**

\_\_\_\_\_ days for **Compositional skill**

\_\_\_\_\_ days for **Idea generation**

\_\_\_\_\_ days for **Project creation**

Use your class time well and come at lunch or after school if you need extra time. However your teacher would like to give you a little more time if you wanna be a little perfectionist. :) - YJ

When doing anything do not stress that it does not look like you wanted it to. Sometimes when doing your work you will come up with an idea that is better than your original by simply doing a mistake or going wild with your paint or pencil. -AD

Don't assume that you can just do everything in class. It's up to you to finish things on your own time to make them the best of your ability. -MS

I am notorious for taking a long time to finish my projects, and the best advice that I have is to go in to work on your projects at lunch and after school prior to the due date because this will allow you to potentially catch up in class and will save you from having to work on one project in-school and another one outside of school, which may cause you to feel overwhelmed. -LF

Make sure to hand in everything in on time because you don't want to be worrying about finishing up your last project while everyone else has moved on to the next. - NB
