

Skill builder - Draw a Hand

Pembina kemahiran - Lukis Tangan

Much of drawing is learning how to forget your mental picture of something and instead focus on the visual properties (such as **line**, **shading**, **proportion**, and **texture**) that you see.

Kebanyakan lukisan adalah mempelajari cara melupakan gambaran mental anda tentang sesuatu dan sebaliknya memfokuskan pada sifat visual (seperti garisan, lorekan, perkadararan dan tekstur) yang anda lihat.

Draw a hand with as much detail as possible, but **without looking at your hand, or anyone else's**.
Lukis tangan dengan perincian sebanyak mungkin, tetapi tanpa melihat tangan anda atau orang lain.

Now draw your hand with as much detail as possible, but you are **allowed to look** at it this time.
Sekarang lukis tangan anda dengan perincian sebanyak mungkin, tetapi anda dibenarkan melihatnya kali ini.
