# Visual Arts 10 is for beginners

**Visual Arts 10 is intended as an introductory course which focuses on developing basic art skills.** It is designed to familiarize students with the central components of the visual arts through material and tool manipulation, skill development and informal art history. These skills will be developed through a variety of processes including drawing, painting, sculpture, digital manipulation, art history, class critiques and reflective practice.

# Learn skills first, develop an idea, and then make a project

## Most units follow this pattern:

1. Two weeks of skill building
2. About one week to develop a good idea
3. Two weeks to create the project

በመጀመሪያ ክህሎቶችን ይማሩ, ሀሳብን ያዳብሩ እና ከዚያ ፕሮጀክት ይፍጠሩ.

تعلم المهارات أولاً، ثم قم بتطوير فكرة، ثم قم بإنشاء مشروع.

Jifunze ujuzi kwanza, kuendeleza wazo, na kisha kufanya mradi.

Matuto muna ng mga kasanayan, bumuo ng ideya, at pagkatapos ay gumawa ng proyekto.

Once beceriyi öğren, sonra bir fikir geliştir, sonra projeyi yap.

Спочатку навчіться навичкам, розробіть ідею, а потім робіть проект.

Đầu tiên, hãy học kỹ năng, phát triển ý tưởng và sau đó thực hiện dự án.

# Mark updates will happen frequently

Leelah Makhoul, Fall 2022

The most useful thing I can do for you is to give you **daily verbal feedback** on your performance while you are working. I try to check in with every student every day, but the classes are very large.

I will also keep you updated on your current mark. I **include your current mark** with the results of nearly every assignment that I return to you.

I will typically have marks input into PowerSchool **within a week** of assignments being due. There is an exception to this: I think it is a bad idea to mark when I am sick!

I also provide students with a **paper copy** of their marks roughly once per month.

# You don't need to buy any supplies

Lena Ubani, Fall 2022

Unlike Visual Arts 11 and 12, it is possible to get by in Visual Arts 10 without buying a personal art kit. **We will provide everything you need** to complete the course.

Right now, each student gets their own kit of materials to take care of. It starts off with a variety of pencils (HB, 2B, 4B), erasers, and smudgers. You also have brushes and a watercolour palette.

If you use up materials, I will replace them. If you lose them, I will give you leftovers.
